ABOUT ME

My name is Benjamin Vølund and I'm 27 years old. I'm an experienced Software Engineer, and have worked primarily with development of frontend applications over the last couple of years. I'm a "dad-to-be" and currently situated in Silkeborg, Denmark. In my sparetime I enjoy basically anything nerdy, from gaming to building with Lego bricks.

EDUCATION

Engineer in Softwaretechnologies

Aarhus Universitet, 2018 – nu

→ Bachelor degree as a Software Engineer at Aarhus University

EXPERIENCE

Web Developer @ Jysk

Aug. 2021 - Present

→ Been part of developing multiple frontend systems - primarily a modern cash register system for the company stores, using React.

Internship @ Kamstrup

Feb. 2020 – Jun. 2020

→ Internship as part of my education. Got to work on my own project from the ground up, in the shape of a WPF Application in C#.

SKILLS

Programming Languages

→ TypeScript, JavaScript, CSS/Sass, HTML, C#, Cypress, Jest, Redux, GraphQL, MongoDB

Frameworks & Libraries

→ React, NodeJs, TailwindCSS, .NET

Tools

→ Git, Heroku, Docker, Webpack, Vercel.
